Menyetujui,

Ketua Jurusan TI,

KATA PENGANTAR

Buku Kerja Praktik Mahasiswa (BKPM) ini disusun untuk Mahasiswa Program Studi Teknik Informatika yang sedang menempuh mata kuliah Intermediate English. Konten materi dari BKPM ini mencakup empat skills Bahasa Inggris: listening, speaking, reading, dan writing yang disampaikan dalam tema: IT Today, IT Product Functions and Features, IT and Instructional Operation, IT and Personal Experience, IT and Future Career, and Current Issues in IT: Artificial Intelligence. Penyajian materi diawali dengan capaian pembelajaran pada setiap acara praktikum, kemudian dilanjutkan dengan aktivitas praktik yang dilakukan oleh mahasiswa. Dengan disusunnya BKPM ini, diharapkan capaian pembelajaran dari mata kuliah Intermediate English akan terpenuhi sebagai salah satu upaya peningkatan kualitas lulusan utamanya dalam bidang bahasa asing.

Pendahuluan
Let's Get Started: Cross Culture Understanding

Materi Pembelajaran : Cross Culture Understanding
Acara Kuliah : 1. Language and Culture
Tempat : Gedung Jurusan TI
Alokasi Waktu : 1x1x170'

- a. Kemampuan Akhir yang Direncanakan (KAD)
 - i. Mahasiswa mampu memahami konsep bahasa sebagai bagian dari budaya.
 - ii. Mahasiswa mampu menyampaikan pendapat dalam bahasa Inggris tentang beragam budaya dalam berinteraksi dalam kehidupan sehari-hari.
- b. Indikator Penilaian
 - i. Pemahaman: Kemampuan memahami apa yang disampaikan dan kesesuaian isi dengan topik yang sedang dibicarakan
 - ii. Kosakata: Kata dan ungkapan yang digunakan dalam bahasa target (bahasa Inggris)
 - iii. Pelafalan: Pelafalan kata yang berterima dan dipahami oleh penutur asli dan lawan bicara
 - iv. Kelancaran
 - v. Tata bahasa: urutan kata dan struktur kalimat dalam bahasa target (bahasa Inggris)
- c. Dasar Teori

In this meeting, we have an overview about customs around the world, especially those related to greeting. Could you share what you know about greetings used in different countries?

Let's check the pictures and share your opinion about whether there is a right way or wrong way to greet people.

A. Greetings

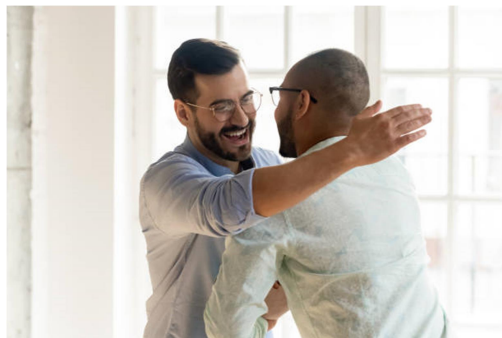

Some people bow.

Some people kiss once. Some kiss twice.

Some shake hands.

And, some hugs.

B. Exchanging Business Cards

People have different customs for exchanging business cards around the world. Some customs are very formal. People always use two hands and look at the card carefully.

Other customs are informal. People accept a card with one hand and quickly put it in a pocket.

C. Small Talk

In some places, it is not polite to ask about someone's age or salary. In others, it's considered rude to ask about someone's family.

d. Refleksi

After learning the materials in this chapter, what have you learned? Fill the boxes with your most objective thoughts.

I have learned...	Challenges I faced during learning:	Aspects I need to improve:
1. ...	1.	1. ...
2. ...	2.	2. ...
3. etc	3. Etc	3. etc

e. Rubrik Penilaian

Spontaneous Conversation Rubric		
Comprehension: The ability to understand what is said to the speaker. 2 = Shows ability to understand the target language when spoken at a somewhat normal rate of speed, with only one repetition or rephrasing, if necessary. 1 = Can understand the target language when spoken at a somewhat normal rate of speed, with more than one repetition or rephrasing. 0 = Does not seem to understand the target language.	Vocabulary: Words and expressions used in the target language. 2 = Uses excellent vocabulary with relative ease. Demonstrates an increasing knowledge of words and expressions. 1 = Uses vocabulary that is just adequate to respond. No attempt is made to use a variety of expressions. Generally understood, but limited to the very basic. 0 = Makes no attempt, or response is totally irrelevant or inappropriate.	Pronunciation: Pronouncing words in such a way that native speaker would understand what is being said. 2 = Can be understood in the target language, but may make few or minor errors. Makes an effort to sound "native," i.e., uses target language speech patterns, intonation, and phrasing. 1 = Can be understood in target language, but may make one or two major errors and/or has some interference from English language speech sounds, patterns, and rules. 0 = Makes major errors and/or uses English pronunciation rules to speak in the target language, or doesn't/can't respond.

BKPM - (INTERMEDIATE ENGLISH)

Fluency: Easy, smooth flow of speech, within a reasonable amount of time (15–20 seconds). 2 = Has a generally smooth flow, with self-correction and little hesitation. 1 = Speaks slowly, using hesitant or halting speech. 0 = Makes no attempt or shows constant hesitation.	Grammar: Word order and sentence structures in the target language. 2 = Demonstrates good use of grammatical structures. Makes no grammatical errors, or a few minor grammatical errors that do not interfere with communication. 1 = Uses a range of grammatical structures, but may make several grammatical errors that do not interfere with communication. 0 = Makes many grammatical errors that negatively affect communication, or doesn't/can't respond.	

Acara 1

Materi Pembelajaran	: IT Today
Acara Praktikum/Praktik	: Expressing critical opinion on today's phenomenon related to IT
Tempat	: Gedung Jurusan TI
Alokasi Waktu	: 1x1x170'

- a. Kemampuan Akhir yang Direncanakan (KAD)
 - i. Mahasiswa mampu mengidentifikasi informasi penting yang meliputi informasi umum dan khusus yang ada di dalam bacaan.
 - ii. Mahasiswa mampu menyampaikan opini dan/atau pemikiran kritis secara lisan mengenai topik yang sedang didiskusikan.
- b. Indikator Penilaian
 - i. Kelancaran ketika berbicara, isi, organisasi suara
 - ii. Akurasi dan isi
 - iii. Pembukaan, pemilihan kata, struktur kalimat, tata bahasa, ejaan, kapitalisasi, dan tanda baca
- c. Dasar Teori

Expressing Opinions

Knowing how to express your opinion in English is valuable whether you are speaking or writing. In today's program we will look at phrases you can use to share your point of view.

Common phrases

Many phrases are suitable in everyday speech and some types of writing, such as on blogs and personal websites. You have probably already seen or used some of these phrases:

- I think...
- I believe...
- I feel...
- In my opinion... and
- I would say...

For example, imagine you have your own food website. Today you're writing or talking about the world's best street food. You might say:

"In my opinion, Bangkok has the best street food."

Add strength

But suppose you wanted to make the statement stronger. You can do it by adding an adverb or adjective. For example:

- I really think...
- I strongly believe...
- I truly feel... or
- In my honest opinion...

In addition, giving reasons for your opinion adds strength to the claim. Let's hear the street food statement again:

"In my honest opinion, Bangkok has the best street food. I have never seen more choices of what to eat – and everything I've tried has been delicious!"

Formal phrases

Next, let's look at a few phrases that are more common in formal situations. You might, for example, hear one of these at a business meeting or a conference, or in a formal paper:

- From my point of view...
- From my perspective...
- In my view... or
- It seems to me that...

Here's an example:

"In my view, cruise ships should be banned. They produce massive amounts of waste and use the dirtiest fuel in the world."

Though phrases like "In my view..." are usually more formal than ones like "I think," there is no rule for where or when you can use them. It's often a matter of personal choice.

Asking for opinions

So, imagine you've expressed yourself. However, what about the opinion of others? Often, when we express an opinion or suggestion, it's a good idea to ask other people for theirs. Phrases like these help show our desire to hear from others:

- What do you think of...?
- What are your thoughts on...?
- How do you feel about...? And
- What's your opinion on...?

You can use these questions in many kinds of situations. You might ask, for instance:

"What's your opinion on Futbol Club Barcelona?"

"How do you feel about the new art director?"

"What are your thoughts on tonight's activities?"

- d. Alat dan Bahan
 - i. BKPM
 - ii. Komputer/laptop/handphone
 - iii. LCD Projector/Smart TV
 - iv. Internet

- e. Prosedur Kerja

Let's warm up

1. Answer the following questions.

- a. Do you have gadgets?

- b. What do you usually do with your gadgets?
- c. Do you have social media?
- d. Have you ever bought something online?
- e. Can you live your life without IT?

READING**2. Read the following text and answer the questions.****Technology and society**

IT systems are increasingly embedded in many aspects of our daily lives. But IT doesn't just exist in a vacuum – it has an impact on society, and society has an effect on it. It also has economic and political implications.

The end of the twentieth century and the beginning of the twenty-first century are often compared to other historical periods of great technological change such as the Industrial Revolution. This is because of the huge changes that are happening in many aspects of life. The terms **information society** and **network society** have been used to analyse the social and economic changes that are taking place in conjunction with technological developments. These ideas are used by policy makers to drive forward changes in our technological infrastructure. For example, the UK government's vision is that many public services will be accessible online, and billions of pounds have been spent to get computers into schools and local communities. The language used by politicians has drawn strongly on the inevitability of technological change and the need to be at the forefront of these changes in order to secure future prosperity.

One of the discussions about IT concerns whether changes in society are driven by technological development, or whether technologies are actually influenced and shaped by the society that produces them. This is a complex debate but an interesting idea to think about. On the one hand, if technologies are shaped by social conditions, then they will inevitably reflect the values and norms of the particular society in which they are created. On the other hand, if we believe technology determines the way society develops, then we might feel very helpless and fatalistic.

You could also think about this on a personal level. In your everyday life, you will probably have experienced technological change as something that you have no control over – something that happens to you. For example, a new computer arrives in your office and you are required to learn how to use it, whether you like it or not. Often you have no influence or control over how technology intrudes into your life. In commercial terms this is sometimes described as either a 'technology push' or, conversely, a 'market pull'.

- 1) What is the text about?
 - A. Information society
 - B. Network society
 - C. Economic changes
 - D. Technology and society
- 2) When did the technological change start?
 - A. At the end of 19th century and the beginning of 20th century
 - B. At the end of 21st century and the beginning of 22nd century

- C. At the end of 20th century and the beginning of 21th century
- D. At the end of 18th century and the beginning of 19th century
- 3) Based on the text, which of the following aspects of life that is not influenced by development of technology?
 - A. Economic
 - B. Environmental
 - C. Social
 - D. Political
- 4) Based on the text, it can be implied that
 - A. Society and technology potentially influence one another.
 - B. Society is fully influenced by the development of technology.
 - C. Technology is an independent entity in the social context.
 - D. There is no relation between technology and society.
- 5) How does the writer say about the influence of technology to individuals?
 - A. Individuals are able to fully control the technology.
 - B. Technology is not powerful enough to change personal life.
 - C. Technology has become the part of their lives.
 - D. Individuals can live their lives without technology.

WRITING

3. By using your own words, express your opinions on the following topics.

- a. Excessive use of gadget.
- b. Frauds in online shopping.
- c. Current trends of AI.
- d. Students playing online games.

SPEAKING

Technology has undoubtedly become important part of people's life today. Unfortunately, it also brings negative effects.

- 4. Look at the picture below. What do you think about the picture? Does it show a negative or positive effect of technology?**

Source: <https://www.seattletimes.com/>

- ✓ **In your own words, share your opinion(s) on the picture above.**

 - i. Mahasiswa mampu mengidentifikasi informasi penting yang meliputi informasi umum dan khusus yang ada di dalam tayangan audio-visual.
 - ii. Mahasiswa mampu membuat *outline* dari sebuah *essay*.
 - iii. Mahasiswa mampu menulis *essay* berdasarkan *outline* yang telah dibuat.
- b. Indikator Penilaian
 - i. Kelancaran, isi, organisasi suara
 - ii. Akurasi dan isi
 - iii. Pembukaan, pemilihan kata, struktur kalimat, tata bahasa, ejaan, kapitalisasi, dan tanda baca
- c. Dasar Teori

The Writing Process

The writing process refers to the series of steps followed to create a written piece, whether it's an essay, a story, or any other form of written work. While individual writers may have their own unique approach, the general writing process typically involves the following steps:

Pre-writing: This is the initial stage where you brainstorm ideas, gather information, and plan your writing. You may engage in activities like freewriting, mind mapping, or conducting research to generate and organize your thoughts.

Outlining: Once you have a clearer idea of what you want to write, creating an outline can help you structure your work. An outline provides a roadmap for your writing, outlining the main points, arguments, or sections that you plan to include.

Drafting: This is where you begin writing the first draft of your piece. Focus on getting your ideas onto paper without worrying too much about perfection. Let your thoughts flow, and don't be afraid to revise and refine later.

Revising: After completing the initial draft, take the time to review and revise your work. Look for areas where you can improve clarity, coherence, and overall effectiveness. Check for grammar, punctuation, and spelling errors. Revise your content, rearrange paragraphs, and refine your language for better flow and impact.

Editing: Once you have revised the content, shift your focus to editing. Check for errors in grammar, spelling, punctuation, and sentence structure. Ensure that your writing follows the appropriate style and formatting guidelines.

Proofreading: In this final step, carefully review your work for any remaining errors or typos. Pay attention to details, such as consistency in formatting, citation accuracy, and overall readability.

Publishing or Submitting: The last step is to publish your work or submit it for evaluation, depending on the purpose of your writing. This could involve sharing your writing on a blog or website, submitting it to a journal or magazine, or handing it in as an assignment.

It's important to note that the writing process is not always linear, and you may find yourself revisiting previous steps as you refine your work. Writing is an iterative process, and each stage contributes to improving the quality of your final piece.

- d. Alat dan Bahan
 - i. Komputer/laptop/handphone
 - ii. LCD Projector/Smart TV
 - iii. Speaker
 - iv. Internet
- e. Prosedur Kerja

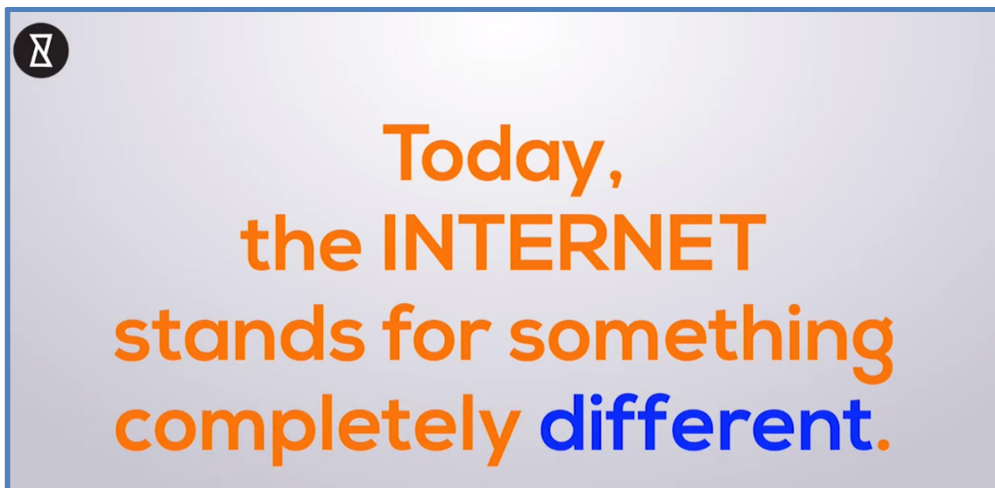

Let's warm up

1. Answer the following questions.

- a. Do you use internet every day?
- b. What for?
- c. How long do you spend your time using internet approximately every day?
- d. Has internet become part of your lifestyle?

LISTENING

2. Watch and listen to the following clip and answer the questions given.

Audio-visual link: <https://www.youtube.com/watch?v=MpZNTZZitpw>

- 1) What was the internet in 1969?
 - A. An academic research project
 - B. An secret operation run by a government
 - C. A social program by volunteer
 - D. A complex project in technology
- 2) What concept did the internet have at the beginning?
 - A. Computers that could calculate quickly
 - B. Computers that could be brought anywhere
 - C. Computers that could help people learn and work
 - D. Computers that could communicate each other

- 3) When did the internet become a global commercial network?
 - A. In 1980s
 - B. In 1980
 - C. In 1990s
 - D. In 1990
- 4) What does the speaker say about the internet today?
 - A. It does not bring huge impact to our life.
 - B. It has become much bigger and influential in our life.
 - C. It has become way smaller and less important to our life.
 - D. It does not change any aspects in our life significantly.
- 5) According to the clip, it can be concluded that
 - A. Internet is less influential than other technologies
 - B. Internet is as influential as the other technologies
 - C. Internet is relatively similar to other technologies
 - D. Internet is more influential than other technologies

Keep watching the audio-visual clip and fill in the following table based on the information you get.

10 ways the internet has changed our lives

Aspect	Before the internet	After the internet
1. Navigation	People should ask for directions or learn how to use a map.	People use their phones to get the directions to wherever they want to go.
2. Shopping		
3. Dating		
4. Communication		
5. News		
6. Finding a job		
7. Learning new skills		
8. Entertainment		
9. Reading		

10. Playing games

WRITING

3. Write a short essay on how internet influences your life in two aspects: 1) education and 2) communication. Before writing a complete essay, make an outline by using the following template.

Title:

Paragraph 1 (<i>It is an introductory paragraph</i>)	
Topic Sentence	
Supporting Details	1.
	2.
	...
	...

Paragraph 2 (<i>It discusses the first aspect: education</i>)	
Topic Sentence	
Supporting Details	1.
	2.
	...
	...

Paragraph 3 (<i>It discusses the second aspect: communication</i>)	
Topic Sentence	
Supporting Details	1.
	2.
	...
	...

Paragraph 4 (<i>It is the closing paragraph</i>)	
Topic Sentence	
Supporting Details	1.
	2.
	...
	...

f. Refleksi

After learning the materials in this chapter, what have you learned? Fill the boxes with your most objective thoughts.

I have learned...	Challenges I faced during learning:	Aspects I need to improve:
1. ...	1.	1. ...
2. ...	2.	2. ...

3. Etc

3. Etc

3. etc

g. Rubrik Penilaian

A. Listening Task 1

Number of Question	Point of Correct Answer	Point of Incorrect Answer
1	1	0
2	1	0
3	1	0

Acara 3

Pokok Bahasan	: IT Product Functions and Features
Acara Praktikum/Praktik	: Describing product functions and features
Tempat	: Gedung Jurusan TI
Alokasi Waktu	: 1x1x170'

- a. Kemampuan Akhir yang Diharapkan (KAD)
 - i. Mahasiswa mampu memahami pola komunikasi dalam menjelaskan fungsi dan fitur produk teknologi
 - ii. Mahasiswa mampu memahami ungkapan-ungkapan yang dapat digunakan untuk meminta bantuan.
 - iii. Mahasiswa mampu mendeskripsikan fungsi dan fitur dari produk teknologi.
- b. Indikator Penilaian
 - i. Kelancaran, isi, organisasi suara
- c. Dasar Teori

Describing Product Details

When describing product details in English, it's important to use clear and concise language that effectively communicates the features, specifications, and benefits of the product. Here are some theoretical insights and grammatical aspects to consider when describing product details:

- Use the appropriate tense: Generally, when describing a product, it is common to use the present tense to convey its current features and capabilities. However, if you are discussing future enhancements or improvements, you may need to use the future tense.

Example: "This smartphone has a high-resolution display" (present tense)
vs. "Our upcoming model will feature an improved camera" (future tense).

- Utilize adjectives and descriptive language: To make your product descriptions more engaging, incorporate specific adjectives and descriptive language to highlight the unique qualities and benefits of the product. This helps potential customers visualize the product and understand its value.

Example: "Our sleek and lightweight laptop offers blazing-fast performance for seamless multitasking."

- Focus on features and specifications: Provide a comprehensive list of the product's key features and specifications, such as dimensions, weight, color options, materials used, storage capacity, processing power, connectivity options, and any unique functionalities.

Example: "This smartwatch features a 1.3-inch OLED display, water-resistant design, heart rate monitor, and a built-in GPS for accurate tracking."

- Highlight benefits and usage scenarios: Describe how the product can improve the user's life or solve a specific problem. Emphasize the advantages and practical applications of the product to resonate with potential customers.

BKPM - (INTERMEDIATE ENGLISH)

Example: "Our noise-canceling headphones offer immersive audio quality, allowing you to enjoy your favorite music without any distractions, whether you're commuting, working, or traveling."

- Use comparatives and superlatives: When appropriate, compare the product to similar items in the market to showcase its superiority or unique selling points.

Example: "Our vacuum cleaner provides superior suction power compared to other models in its category, ensuring a thorough and efficient cleaning experience."

- Pay attention to grammatical accuracy: Ensure that your descriptions are grammatically correct, with proper subject-verb agreement, tense consistency, and appropriate word order. Proofread your descriptions to avoid any spelling or punctuation errors.

Example: "The new blender effortlessly blends fruits and vegetables into smooth and nutritious shakes, making it an essential appliance for health-conscious individuals."

Remember to tailor your product descriptions to your target audience and their specific needs. Use language that is accessible, informative, and persuasive, allowing potential customers to make an informed decision.

✓ Simple Present Tense

Simple Present Tenses Sentence Structure Guide Chart		
Sentence Structure	Formula	Example
Affirmative	Subject + Verb in the base form + -s/es (if singular) + the rest of the sentence	Roy wants to eat cake.
Negative	Subject + do/does + not + Verb + rest of the sentence	They do not want to join.
Interrogative (affirmative)	Do/does + Subject + Verb + rest of the sentence?	Does she live here?

✓ Comparatives and Superlatives

We use **comparatives** to compare two things. We use -er than, more ... than or less ... than with adjectives. We use more, less or fewer with nouns.

*Servers are **more expensive than** tablets.*

*Laptops are **less expensive than** servers.*

*We have **fewer servers than** desktops.*

BKPM - (INTERMEDIATE ENGLISH)

We use the same (as) or as + adjective + as to show that two things are the same.	<i>The set-up fee is the same for both plans.</i>
We use superlatives to compare more than two things. We use the ...-est, the most ... or the least ... with adjectives. We use the most or the least with nouns.	<i>It's as fast as the other server.</i> <i>This server is the fastest of the three but the least reliable.</i> <i>Which server has the most memory?</i>

- d. Alat dan Bahan
- Komputer/laptop/handphone
 - LCD Projector/Smart TV
 - Kertas folio bergaris
 - speaker
 - Internet

- e. Prosedur Kerja

Let's warm up

1. Answer the following questions

- What was the latest gadget you bought?
- What did you consider when buying the product?
- Did you get any information about the specification?
- What functions and/or features that you loved most from the product?

VOCABULARY

2. Are these items **internal components (I)**, **peripherals (P)**, or **storage (S)**? For some items, there may be more possible answer.

- | | |
|---------------------------|----------------------------|
| 1. External drive ____ | 7. Mouse ____ |
| 2. Hard disk drive ____ | 8. Memory ____ |
| 3. Headphones ____ | 9. Monitor ____ |
| 4. Optical drive ____ | 10. Power supply unit ____ |
| 5. Keyboard ____ | 11. Printer ____ |
| 6. Solid state drive ____ | 12. Screen ____ |

READING

3. Read the text about HostElite website security and answer the following questions.

HostElite

Do you want better security for your website than you get with shared hosting? Dedicated hosting may be right for you, with your own server in our secure data centre!

Choose from our plans or send us your specifications. We will replace hardware within 24 hours of any problem and we also guarantee 99.99% uptime.

We provide 24-7 support. You can choose between operating systems, which we can install using your licence, or you can purchase a licence from us. Under all plans, you will be able to host an unlimited number of websites and databases. All plans are for a minimum of six months.

	Basic server plan	Standard server plan	Premier server plan
No. of CPUs	1	2	4
CPU specs	Quad core, 3.0 GHz	8 core, 3.2 GHz	16 core, 3.2 GHz

Making Complaints and Apologies

Imagine that you bought a mobile phone and the camera did not work. You cannot take pictures using your brand new mobile phone. You must be very unhappy. However, how can you express this effectively? In our daily life, we do not expect to experience such thing and make complains. In particular situations, to receive compensation or a solution, we have to do it.

There are three steps of an effective complaint. They are explaining the problem; stating how you feel; and asking for action. Here are the three steps of expressing complaints.

A. Explaining the problem

The first step that you need to do is to describe the issue. Polite (respectful) language must be used, which is usually indirect in English. For instance, if you are at a restaurant and the waiter forgets to bring your meal, uttering, "I didn't get my drink" may be too direct. It can cause the waiter to become defensive because it may sound critical. Here are some expressions you can use to politely explain your problem.

Table 1. Expressions of Explaining Problems

1. Hi. How's it going? I'm sorry to have to say this, but I noticed some damage to my shirt.
2. Oh, hi! I think you may have forgotten to bring my meal.
3. Hi. How's it going? I just noticed some damage to my pants.
4. Hi, I'm sorry to bother you , but my fried rice is a little too salty and spicy.
5. Hello! How are you? There seems to be a mistake on my billing statement. I think you may have overcharged me

B. Stating your feelings

The next step is to say how you feel about the problem(s). It is, very often, not necessary, depending on how bad the problems are. Some problems have easy and quick solutions. For example, politely telling people that they forgot to bring your order usually leads to a speedy solution. However, more serious problems like receiving poor

service at a restaurant or hotel need you to explicitly express how you feel. The followings are useful steps to help you express how you feel.

- a Always "politely explain the problem".
- b Use "It is..." or "This is...", or one or more descriptive words after them. For example:

*Hi. I'm sorry I have to say this but there is an **insect** problem in my orange juice. I just found it when I drank it. It is very unusual since the service of this restaurant is always excellent.*

C. Asking for action

The last step is asking for action. When you want to do this step, you need to think about who the listener is, maybe you are the ones who ask for action and you want someone else to take the action. Here are the examples you can use to ask for action:

- Could I please speak with the manager?
- Could you please redirect my call to the manager?
- Would it be possible to reimburse me?
- Is there any chance you could turn the heat up?

Let's connect the steps

Here is the example of putting the steps together.

A: OK. That'll be \$21.50 please.
B: Oh, gosh... I just noticed some damage to my clothing. The shirt has a hole and the pants have changed colour. (Step 1)
A: Hmm. I cleaned those myself. I don't remember damaging anything.
B: But these pieces are new and I've only worn them once. Is there any chance you could reimburse me? (Step 3)
A: Let me get the manager.

(Adapted from: <https://learningenglish.voanews.com/a/how-to-make-a-complaint-in-english/4657004.html>)

It is never easy to make complaints, especially when you need to do it politely. That is why it will be better for you if you know how to do it in a right way. Here are some other examples:

Table 2. Expressions of Making and Responding to Complaints

Making complaints	Responding to complaints
I am writing to complain about the service I have received from your company.	I'm so sorry , but this will never happen again.
I would like to express my dissatisfaction about the quality of your product.	We are terribly sorry for that. We will do our best to increase the quality of our product.
I am afraid I have got a complaint	I apologize for the inconvenience

LISTENING

1. Listen to a conversation between a customer and customer service assistance and complete the conversation.

John	:	Hello, is it Star Internet service?
Customer Service	:	Yes, it is. <u>(1)</u> I help you?
John	:	Hi, my name's John and I want to register a complaint regarding my <u>(2)</u> .
Customer Service	:	Oh, I'm sorry for the <u>(3)</u> . May I know what has been the problem?
John	:	My internet connection has been repeatedly <u>(4)</u> and when it is connected, the speeds are very slow.
Customer Service	:	Don't worry sir. Let me check to see if there is a reported issue with our network in your area. I need your registration number. Do you have it?
John	:	Yes, my registration number is <u>(5)</u> .
Customer Service	:	Thank you sir. The system does not show any maintenance in your area.
John	:	Okay, so the problem must be on my <u>(6)</u> ?
Customer Service	:	No, sir. I can't say this for sure. I'll get a <u>(7)</u> to come to your house and take a look.

Customer Service	:	Okay Mr. John, I have registered your complaint and your complaint number is <u>(8)</u> , okay?
John	:	Okay. How soon can the technician come out?
Customer Service	:	Sir, I can get someone out there between <u>(9)</u> and 1 p.m. tomorrow.
John	:	Okay, thank you very much and I hope the problem will be <u>(10)</u> by tomorrow.
Customer Service	:	Don't worry, sir. Have a good day.
John	:	Thank you.

BKPM - (INTERMEDIATE ENGLISH)

1. _____
2. _____
3. _____
4. _____
5. _____

6. _____
7. _____
8. _____
9. _____
10. _____

Based on the dialogue, write (T) if the statement is true and (F) if the statement is false.

1. John wants to register a complaint about his internet service. (T/F)
2. The customer service representative confirms that it is Star Internet service. (T/F)
3. John's internet connection has been consistently stable and fast. (T/F)
4. John provides his registration number, which is 838390. (T/F)
5. The system shows a reported maintenance issue in John's area. (T/F)
6. The customer service assistance suggests that the problem might be on John's end. (T/F)
7. John receives a complaint number, which is 390. (T/F)
8. The technician will visit John's house between 10 a.m. and 1 p.m. tomorrow. (T/F)
9. John expresses hope that the problem will be resolved by tomorrow. (T/F)
10. The customer service representative assures John that the issue will be resolved. (T/F)

SPEAKING

- 2. Please, make a dialogue based on the situation below. After that, practice your dialogue with your pairs.**

You purchased a new smartphone. You find that the main camera does not work.

You ordered a set of computer from a store. It has been two weeks since the order but it has not come yet.

You are at an internet café to play an online game. The internet connection is suddenly lost.

You just bought a drone, but the battery runs out very quickly. It seems that the battery does not perform as stated in the specification.

READING

3. Read the following email and answer the questions based on the email

Keyboard Not Working
— ✖ ×

customercare@advancetech.com

Keyboard Not Working

Dear, Advance Tech Customer Service Representative,

I purchased an ASUS laptop at your store about a month ago. Initially, everything worked well. Unfortunately, three days ago I found that some keys of the keyboard did not work. I have tried to solve the problem by following many tips available on the internet, but nothing happened.

I believe that I use the laptop normally. I mean, the problem is not caused by improper use or any personal faults. Therefore, I need to come to your store to get the problem fixed because the laptop is still under warranty. I am looking forward to your response if there is a specific procedure to follow and/or specific documents to prepare before I visit your store.

Thank you,

Graham Bolt

Grammar Booster

IMPERATIVES

Commands and orders

The **imperative** is used to give commands and orders. The form of the verb used for the imperative is the **base form** of the main verb, which is used without a subject.

- *Walk to the corner, turn right, and cross the road.*
- *Open your mouth and say 'Aaaah'.*

Although the main feature of sentences in the imperative is that they have no **grammatical** subject, they do have an **understood** subject, 'you'. The basic form of the imperative remains the same whether it is addressed to one or more people.

- *Come on, Mary; I'm waiting.*
- *Come on, girls; you're late.*

There is also a special type of imperative, using *let's*, that is used when you need to include the speaker. The word order of a sentence in the imperative is: **verb + object** (if needed). The negative imperative is made with *do + not* or *don't*.

- *Don't lose that key.*
- *Do not come back without it!*

The uses of the imperative are as follows:

- to give an order.
- *Go away.*
- *Stop that.*
- *Keep quiet.*
- to give instructions.
- *Don't use this spray near a naked flame.*
- *Apply the glue thinly and leave it for ten minutes.*
- to give advice or warnings.
- *Don't forget to take your passport with you.*
- *Be careful!*
- *Don't go on the ice.*
- to make an offer or an invitation.
- *Have a piece of cake.*
- *Come round and see me some time.*

The imperative of *do + a main verb* can be used:

- for polite emphasis.
- *Do take your coat off.*
- to be persuasive.
- *Do try to eat a little of this; it will be good for you.*
- to show irritation.
- *Do stop talking! I'm trying to work.*

Note that the imperative is not the only way to form a command or an order. You can also issue a command when you use a sentence in the declarative or the interrogative.

- *I'm certainly not going to get it – you get it.*
- *Would you get it, then? I'm busy.*

Making Suggestions

Let's (*let + us*) + **main verb** is used in the 1st person plural only, especially

when you are trying to encourage someone to do something with you. It includes both the speaker and the hearer, so the subject that is understood is represented by the plural *we*.

- *Let's visit Malcolm this weekend.*
- *Please let's go to the cinema tonight.*
- *Do let's have a look at your new computer, Chris.*
- *Let's pool our resources.*

Suggestions which start with *let's* often end with the sentence tag *shall we?*

- *Let's phone her now, shall we?*
- *Let's go for a walk after supper, shall we?*

In ordinary English the negative is *let's not* + **main verb** or sometimes *don't let's* + **main verb**.

- *Let's not worry about that now.*
- *Don't let's worry about that now.*

In formal English, the negative is *let us not* + **main verb**.

- *Let us not lose sight of our aims.*

Do let's is the emphatic form.

- *It's a very good bargain; do let's buy it!*

The uncontracted form *let us* + **main verb** is occasionally used in formal and written English.

- *Let us be clear about this.*
- *Let us hope that this will never happen again.*

The answer to a suggestion with *let's* is normally either, *yes, let's* or *no, let's not* or sometimes, *no, don't let's (...)*.

- *Let's phone her now, shall we? – Yes, let's.*
- *Let's phone her now, shall we? – No, let's not.*
- *Let's invite Malcolm over this weekend. – No, don't let's do that.*

The vocative

The imperative is often used with a **vocative**. This is where you mention a person's name or some other way of identifying the person to whom a command or request is being addressed.

- *David, come here!*
- *Come here, David.*
- *Hey, you, stop talking!*

The vocative can be a proper noun, the pronoun *you*, or a noun phrase. The vocative can come before or after the main clause. A vocative forms a part of many questions.

- *Peter, do you know where I put the DVD?*
- *Have you seen Chris recently, Jenny?*

A vocative is also combined with an interrogative clause to form a request.

- *Tony, would you pass me the hammer?*
- *Could I speak to you privately for a minute, Sue?*

When a vocative is used with an imperative clause, the sentence is usually a command.

- *Sam, get off there!*

- *You, come back!*

A command can also be phrased as a request.

- *Would you stop talking now, darling, and go to sleep.*
- *Would you get off there, please, Sam.*

A practical reason for using a vocative is to supply the missing but understood subject, so that the right person will understand the command or request, and act on it.

Note the punctuation. There should be a comma between the vocative part of the clause and the remainder.

As part of a command, except for urgent warnings, the use of the vocative is considered rude or abrupt.

LISTENING

1. Watch and listen to the following video. Then, answer the following questions.

Taken from: <https://www.youtube.com/watch?v=e2AJa2iwEzo>

1. What is the video about?
 - a. How to set up Apple Watch
 - b. How to turn on Bluetooth device
 - c. How to pair Apple Watch and iPhone
 - d. How to recover data on iPhone
2. Before setting up the watch, the owner should do the following, **except**
 - a. Making sure the operating system is updated

- b. Connecting the devices to internet network
 - c. Turning off the Bluetooth of any devices
 - d. Making sure the devices are close to each other
3. How to turn on the Apple Watch?
 - a. Hold the watch next to the iPhone.
 - b. Press and hold the side button.
 - c. Tap on the power button on the screen.
 - d. Recharge the battery for an hour.
4. What to do next after turning on the watch?
 - a. Choose the data recovery option.
 - b. Install the basic features on the watch.
 - c. Scan the watch by using the phone.
 - d. Place the phone next to the watch.
5. What to do when you cannot use the camera?
 - a. Tap on "Pair Apple Watch Manually".
 - b. Go back and try to rescan the watch.
 - c. Turn on the Bluetooth to pair.
 - d. Refocus the camera for better recognition.
6. What does "Wrist Preference" mean?
 - a. To choose between 12- and 24-hour format.
 - b. To which hand a user wants to wear the watch.
 - c. To decide either analog or digital display.
 - d. To synch the watch with the phone.

READING

2. Read the following dialogue and write the steps of the procedures in the dialogue.

- Andrew : Hey, Sarah! I need your help with something. Are you good with information technology?
- Sarah : Absolutely, Andrew! What do you need help with?
- Andrew : Well, I'm having trouble setting up my new printer. I can't seem to get it connected to my computer. I've read the instructions, but I'm still confused.
- Sarah : No problem, Andrew! I'd be happy to assist you. First, let's make sure the printer is properly connected to your computer. Are all the cables securely plugged in?
- Andrew : Yes, I've checked that multiple times. It seems fine.
- Sarah : Okay, let's try troubleshooting the software. Have you installed the printer drivers on your computer?
- Andrew : I think so, but I'm not entirely sure. How can I check if the drivers are installed?
- Sarah : Go to the Control Panel on your computer and open the "Devices and Printers" section. Look for your printer's name. If it's listed there, the drivers are likely installed. If not, we may need to download and install them.
- Andrew : I'll check that right away. Oh, I see the printer listed there! So the drivers are installed. What's the next step?
- Sarah : Great! Now let's check if the printer is set as the default printer. Right-click on the printer's icon and select "Set as Default Printer" from the menu.
- Andrew : Done! It's set as the default printer now.
- Sarah : Perfect! Now try printing a test page to see if it's working. Open a document and go to the print menu. Make sure the correct printer is selected, and click on "Print."

BKPM - (INTERMEDIATE ENGLISH)

- Andrew : It worked, Sarah! The printer started printing the test page. Thank you so much for your help!
- Sarah : You're welcome, Andrew! I'm glad I could assist you. If you have any more questions or face any other issues, feel free to ask anytime.
- Andrew : Definitely! I appreciate your expertise. Thanks again for saving the day!

1. How to check if the drivers are installed.

- 1)
- 2)
- 3)

2. How to check if the printer is set as the default printer.

- 1)
- 2)

3. How to try printing a test page.

- 1)
- 2)
- 3)
- 4)

SPEAKING

3. A friend of yours is confused about how to connect his/her wireless speaker to a laptop. In pairs, make a dialogue on how to complete the procedure. Perform the dialogue in front of the class.

Scoring Rubric for Speaking Skill

Criteria	Points
----------	--------

Fluency 5. The speaker speaks confidently and naturally with no distracting hesitations. Ideas flow smoothly. 3. The speaker hesitates several times, but generally seems to know the desired words, even if it is necessary to think about them a bit. 1. The speaker has many hesitations and great difficulty remembering or selecting words.	5
Pronunciation 5. Pronunciation is accurate, with correct inflections, numbers of syllables and other correct nuances of pronunciation. 3. Pronunciation is satisfactory; however words sometimes have incorrect inflections or are otherwise sometimes hard to understand. 1. Pronunciation is very hard or impossible to understand by a native speaker.	5
Grammar 5. The speaker speaks with no more incorrect grammar than a native speaker would. 3. The speaker occasionally uses inappropriate verb tenses and/or incorrectly uses parts of speech, however the speaker has the ability to correct grammar without prompts. 1. The speaker makes frequent use of inappropriate verb tenses and/or incorrectly constructs sentences or uses parts of speech.	5
Vocabulary 5. Vocabulary is sufficient to be understood in most settings and words are used with their correct meaning. 3. Vocabulary is moderate, although the speaker sometimes needs help identifying the correct words. There are only occasional problems with correct meanings of words. 1. Vocabulary is very limited and/or incorrect words are often used.	5
Content 5. The speaker is knowledgeable about the subject and provides a significant level of detail, given the time available. 3. The speaker is aware of the subject and attempts to provide relevant ideas about it. Provides some details. 1. Speaker seems to have little or no understanding of the subject. Statements are superficial or not relevant.	5

 - v. Kosakata
 - vi. Kelancaran
- c. Dasar Teori

What is procedure text?

Procedure text, also known as procedural text or procedural writing, is simply any text that provides instructions in a simple, step-by-step format. The name comes from the fact that the reader must follow a procedure if they wish to carry out the instructions. A procedural text is a great way to teach someone something new, from how to ride a bike to how to get from one place to another. Procedure text is a great example of a non-fiction text that your children might encounter.

What is the purpose of procedure text?

The main thing that unites different types of procedural texts is their purpose. All examples of procedure text are informational and directional - they aim to instruct the reader, and help them towards a specific goal.

What are some examples of procedure text?

Procedural texts are everywhere, and it is likely that your child will have encountered forms of procedure text from a young age. This might include formats such as:

- A recipe - how to cook something;
- Directions - how to get from one place to another;
- A how-to guide - for example, how to tie your shoelaces;
- Rules - for example, of a board game;
- Safety procedure - telling you how to stay safe, for example if there's a fire;
- Craft instructions - such as how to make a paper chain;
- Instruction manual - how to use a new toy.

There are plenty more types of procedure text out there - these are just a few common examples. Why not get your class to see if they can think of any more, or any specific examples that they have encountered recently?

Common features of procedure text

While they might have different formats, procedure text texts are all connected by the fact that they have the same aim: to instruct the reader. Because of this, there are many features of the genre that are common, including:

- An introduction that clearly states the aim of the text to the reader - this could be as simple as one sentence, or could be a whole paragraph with a little bit of backstory;
- Numbered instructions - this will help the reader to know the order they must follow, and will also help them keep their place if they're carrying out the instructions as they read;
- Imperative commands, such as "download the application" or "do this" - these are verbs that specifically tell the reader to do an action at that moment;
- Second-person language ("Next, you need to install...") - this reinforces the fact that the reader is expected to carry out the instructions;
- Time phrases to signpost instructions, such as "first", "next", and "then";
- Present tense - as the reader is likely to attempt the steps while they read, or very soon after;
- Vocabulary specific to the procedure - for example, baking-related terms in a recipe.
- Not all procedural texts will have every one of these features, but they are common. Knowing these typical features of procedure text are a great way for your class to recognise the genre when they encounter it. Having these in mind will also help your class to create amazing procedural texts of their own.

How to write a procedural text

If you're writing a procedural text, there are a few simple steps you can follow to make it as good as it can possibly be:

- Explain your aim in the title. The whole point of a procedural text is to explain how to do something. Your title should instantly let the reader know what this is - for example, 'How to boil an egg'.
- List all the equipment. If you're describing a procedure that requires equipment, you need to list all this equipment clearly at the beginning of your text. This means the reader can be prepared. A good way to do this is to add a 'You will need' subheading. List the items in the order the reader will need them, just in case they don't get all their equipment together before starting the procedure.
- Keep things in the right order. When writing a procedural text, you need to think very carefully about the different steps you take in order to carry out the procedure you're writing about. What order do you perform these steps in? It's really important you write down all the steps in the correct order, so the reader can get the procedure right.
- Write it as a list. You need to tell the reader directly what they need to do, step by step. Write the steps as bullet points or a numbered list to make the sequence as clear as possible. You can also use sequencing words such as 'first...' and 'then...' so the reader can follow the steps in order more easily.
- Use simple language. Your aim is to help the reader complete this procedure without making any mistakes. To achieve this, you need to keep your language simple and clear, so they can easily understand it.
- Include diagrams and pictures. Lots of people learn visually. Including diagrams and pictures is a great way to help your reader understand what you're helping them to do, and what the different steps should look like.

Ideally, your diagrams should be labelled so the reader can see how they should be using the equipment. If you can include a video, too, that's even better, as many people find video easier to follow than written text.

- Explain the outcome. The reader needs to know what the finished result should look like, or what they should have achieved at the end of the procedure. This means you need to write a clear explanation of the outcome. This should come at the end of your procedural text, after you've listed all the steps.
 - Read it back. Once you've finished writing your procedural text, it's important to read it back thoroughly from start to finish. Would you be able to complete the procedure based on what you've written? This is where you can see if you've missed out any steps, or forgotten to include a vital piece of equipment.

READING

1. Read the following text and answer the questions.

Caring for Your Battery

Lithium-ion batteries are the most common type of battery used in today's mobile devices—including laptops and tablets. These batteries charge quickly, discharge at a steady rate, and they have high-energy density that allows for small cell sizes in batteries.

How to maximize battery health

Like all batteries, lithium-ion cells age and deteriorate over time and with use. To help extend battery life and performance, try to keep the battery level between 20% and 80% several times a week instead of using your device for only a short amount of time, and then plugging it in to recharge the battery. If your device supports Smart charging, turn it on to make sure that your device stays charged to the recommended battery level—even if you keep your device plugged in.

As you use your battery, you should avoid some conditions because they can lead to the battery deteriorating and aging at a faster rate:

- Try not to use your device or charge it at high temperatures. Extremely high temperatures can cause lithium-ion batteries to deteriorate at an accelerated rate, which can permanently lower the battery capacity.
- Store your device with the battery charged to below 50% but not completely drained. Batteries that are more fully charged and then stored may lose capacity faster. If you need to store your device for a long period of time, it's

best to make sure the battery level is below 50% but not completely drained before storing your device.

When a battery has deteriorated a lot, battery life might be very short or the lithium-ion cells may expand. When a battery expands from deterioration, it's most often caused by the formation of non-flammable carbon dioxide (CO₂) gas. If your device's battery has expanded visibly beyond the mechanical enclosure, we recommend that you stop using the device. You should handle the device with caution to prevent putting pressure on or puncturing the battery cell.

Adapted from: <https://support.microsoft.com/en-us/windows/caring-for-your-battery-in-windows-2db3e37f-5e7d-488e-9086-ed15320519e4>

1. What is the text mainly about?
2. Based on your opinion, why does the writer talk about lithium-ion batteries in the first paragraph?
3. Why should you avoid using or charging your device at high temperatures?
4. What does "... has expanded visibly beyond the mechanical enclosure," Mean?
5. What will probably happen if you do not handle the device with expanded battery with caution?

Read the text again and identify the use of imperatives in the text. How many can you find? List them below.

WRITING

2. Write FIVE examples of imperative sentences to give instruction.

1. _____
2. _____
3. _____
4. _____
5. _____

Write a procedure text by choosing ONE of the following topics.

- a. How to upload videos to YouTube.
- b. How to shop online safely.
- c. How to create a short video for social media content.

f. Refleksi

After learning the materials in this chapter, what have you learned? Fill the boxes with your most objective thoughts.

Simple Past VS Present Perfect

Have you ever learned about the difference of simple past and present perfect tense? Well, using simple past and present perfect tense can be tricky for English language learners. Therefore, the discussion on the topic is still relevant. The following explanation will provide you with the insight into simple past and present perfect tense.

Has the time period finished?

Rule	Example	Explanation
The present perfect is used when the time period has NOT finished .	I have seen three movies this week .	(This week has not finished yet.)
The simple past is used when the time period HAS finished .	I saw three movies last week .	(Last week has finished.)

Is it new information or old?

Rule	Example	Explanation
The present perfect is often used when giving recent news .	Martin has crashed his car again.	(This is new information.)
The simple past is used when giving older information .	Martin crashed his car last year.	(This is old information.)

Is it a specific time?

Rule	Example	Explanation
------	---------	-------------

BKPM - (INTERMEDIATE ENGLISH)

Rule	Example	Explanation
The present perfect is used when the time is not specific .	I have seen that movie already.	(We don't know when.)
The simple past is used when the time is clear .	I saw that movie on Thursday .	(We know exactly when.)

Has the action finished (sentences with "for" or "since")?

Rule	Example	Explanation
The present perfect is used with for and since when the actions have not finished yet.	I have lived in Victoria for five years .	(I still live in Victoria.)
The simple past is used with for when the actions have already finished .	I lived in Victoria for five years .	(I don't live in Victoria now.)

- e. Prosedur Kerja

Grammar

1. Complete the following sentence by using either simple past or present perfect tenses.

- Last night, I _____ (lose) my USB flash drive. What should I do?
- She _____ (forget) her password three times.
- The technician _____ (install) the latest version of the software.
- They _____ (upload) the vlog two days ago.
- _____ you _____ (complain) about the poor internet connection?
- What _____ she _____ (do) at the computer laboratory yesterday?
- He _____ (print) all documents as requested before leaving the office.
- _____ you _____ (save) the data in the right folder?
- I was very busy last week. Therefore, I _____ (not/call) her immediately.
- The team _____ (finish) the project. They are about to go back to Surabaya.

Listening

2. Listen to the conversation and complete the following dialogue.

BKPM - (INTERMEDIATE ENGLISH)

- Fernanda : Hey Marcus!
Marcus : Hey Rob, Fernanda. Great to see you! I **__(1)___** you in such a long time.
Rob : You're right. It's been forever. I don't think we've talked since Mary's party.
Marcus : True! That **__(2)___** two years ago. I can't believe it.
Fernanda : What have you been up to? I heard you **__(4)___** your job last year.
Marcus : I did, but, I actually just **__(5)___** a new job a few months ago. I'm an English teacher now, just like you, Rob.
Rob : Amazing! I think you will be great at it. I've been a teacher for almost 15 years now and it's the best job **__(6)___**. Do you get to work with students from all around the world?
Marcus : I do! **__(7)___** students from all over Europe and Asia mostly, but also quite a few from South America.
Fernanda : From Brazil?
Marcus : Yes, I've taught a lot of students from Brazil. They are some of the nicest people **__(8)___**!
Fernanda : I agree! Why **__(9)___** to be a teacher?
Marcus : Well, I wanted to work with international people. I'm very interested in learning about other cultures. My job at the bank was good, but I was ready for a new challenge. You've told me many times how much you love it, and that it's such a fulfilling career. So really, your opinion **__(10)___** me to make the decision.

Listen to the dialogue again and answer the following questions.

1. When was the last time the speakers met and talked to each other?
2. What does the expression of "It's been forever" mean?
3. What did Marcus do after quitting his job?
4. What is Rob?
5. What is Rob's opinion about Marcus being a teacher?
6. What is Rob's opinion about being a teacher?
7. What can you say about students from South America when compared with the ones from Europe and Asia?
8. What did Marcus say about his Brazilian students?
9. Why did Marcus decide to be an English teacher?
10. Who inspired Marcus to be a teacher?

READING

3. Read the text below and answer the following questions

I have created my first Facebook account for about 14 years. I was at an internet café one night when I created the Facebook account. At the beginning, I was confused about what to do in the social media. Fortunately, there was a friend of mine who helped me find interesting features of Facebook including updating my personal info, uploading photos, adding new friends, posting Facebook statuses, etc.

As a new Facebook user, I immediately became addicted to it. I spent a lot of time at my favorite internet café just to check what was new on Facebook. I added more and more friends even though I had never met them in real life. Ridiculously, I frequently updated Facebook statuses. I shared

almost everything I had in mind depending on my moods. It means that people would know when I was happy, sad, curious, and mad shortly after I updated a status.

As the time went by, I thought that my Facebook friends did not really care about what I had in my mind and what I felt. They were too busy with their own activities on the social media. Slowly, did not share my personal life on Facebook as frequently as before. I chose to use Facebook for fun things related to my hobby of collecting car miniatures. In addition, I also found that Facebook is a good and effective media for selling and buying things.

1. What is the text about?
 - a. Writer's feeling about Facebook at the beginning.
 - b. Writer's experience in using Facebook.
 - c. How to update status on Facebook.
 - d. Various activities to do on Facebook.
2. What happened to the writer as a new Facebook user?
 - a. He enjoyed using Facebook a lot.
 - b. He shortly knew what to do on Facebook.
 - c. He became a super active Facebook user.
 - d. He used Facebook for trading products.
3. Based on the text, the following activities could be done on Facebook, **except**
 - a. Watching movies
 - b. Adding friends
 - c. Updating status
 - d. Posting photos
4. What did the writer think about his Facebook friends regarding his status updates?
 - a. They commented a lot on the status updates.
 - b. They exchanged information with the writer.
 - c. They checked writer's updates regularly.
 - d. They did not really care about the status updates.
5. From the text, it can be inferred that
 - a. Facebook is a social media with limited features.
 - b. Facebook is a good media for selling and buying things.
 - c. Facebook only connect friends who know each other in real life.
 - d. Facebook users can only do limited activities on Facebook.

f. Refleksi

After learning the materials in this chapter, what have you learned? Fill the boxes with your most objective thoughts.

I have learned...	Challenges I faced during learning:	Aspects I need to improve:
1. ...	1.	1. ...
2. ...	2.	2. ...
3. Etc	3. Etc	3. etc

 - i. Mahasiswa mampu membuat ringkasan dari sebuah teks
 - ii. Mahasiswa mampu menceritakan pengalaman dalam bentuk *narrative/recount text* terkait topik yang sedang dibahas
- b. Indikator Penilaian
 - i. Akurasi dan isi
 - ii. Pembukaan, pemilihan kata, struktur kalimat, tata bahasa, ejaan, kapitalisasi, dan tanda baca
- c. Dasar Teori

Paraphrasing and Summarizing**Paraphrasing**

Paraphrasing means rewriting the same information in a different way. It helps you better to integrate the ideas into the particular piece you are writing.

Step-by-step paraphrasing

1. Decide what the key information is, for the purposes of your discussion.
2. Change the order of the ideas and the words. This can help you to emphasise your interpretation of the original text.
3. Change the word form/grammatical form if necessary.
4. Use synonyms if appropriate, but do not change any specific terminology. In the example below, terms such as 'plagiarism management', 'universities', 'students' and 'distance' were not changed. The best place to find suitable synonyms will be elsewhere in the same article.
5. If some words stay the same in the same order (three or more consecutive words), you need to use quotation marks around these words.
6. Repeat the author's name or a pronoun through the paraphrase, so it is clear that we are still reading a paraphrase.
7. Add a detail about where the information came from, if necessary. In the example below, the information 'through her study of eighteen policies on plagiarism from different universities' was added, to give some context to the claims.
8. Keep the author name and page number. (You may have been told that you do not need the page number for a paraphrase, but if the idea came from one specific page, it is still useful to include it. That way, you can check the information again if you need to.)

Examples:

Original: AI photo editor comes with a powerful photo enhancer tool that lets you improve photo quality online.

Paraphrase: Improving photo quality can be done online using an AI photo editor which is equipped with a great photo enhancer.

Summarizing

A summary is a synthesis of the key ideas of a piece of writing, restated in your own words – i.e., paraphrased. You may write a summary as a stand-alone assignment or as part of a longer paper. Whenever you summarize, you must be careful not to copy the exact wording of the original source.

An example of summarizing:

Original text:

America has changed dramatically during recent years. Not only has the number of graduates in traditional engineering disciplines such as mechanical, civil, electrical, chemical, and aeronautical engineering declined, but in most of the premier American universities engineering curricula now concentrate on and encourage largely the study of engineering science. As a result, there are declining offerings in engineering subjects dealing with infrastructure, the environment, and related issues, and greater concentration on high technology subjects, largely supporting increasingly complex scientific developments. While the latter is important, it should not be at the expense of more traditional engineering.

Rapidly developing economies such as China and India, as well as other industrial countries in Europe and Asia, continue to encourage and advance the teaching of engineering. Both China and India, respectively, graduate six and eight times as many traditional engineers as does the United States. Other industrial countries at minimum maintain their output, while America suffers an increasingly serious decline in the number of engineering graduates and a lack of well-educated engineers. (169 words)

(Source: Excerpted from Frankel, E.G. (2008, May/June) Change in education: The cost of sacrificing fundamentals. MIT Faculty Newsletter, XX, 5, 13.)

One-paragraph Summary:

In a 2008 Faculty Newsletter article, "Change in Education: The cost of sacrificing fundamentals," MIT Professor Emeritus Ernst G. Frankel expresses his concerns regarding the current state of American engineering education. He notes that the number of students focusing on traditional areas of engineering has decreased while the number interested in the high-technology end of the field has increased. Frankel points out that other industrial nations produce far more traditionally-trained engineers than we do, and believes we have fallen seriously behind. (81 words)

- **Why is this a good summary?**

The summary identifies the writer, the date of publication, and the source, and restates the key ideas using original wording. The summary reports on the author's point of view, but reports this neutrally.

One-line summary:

MIT Professor Emeritus Ernst G. Frankel (2008) has called for a return to a course of study that emphasizes the traditional skills of engineering, noting that the number of American engineering graduates with these skills has fallen sharply when compared to the number coming from other countries. (47 words)

- **Why is this a good summary?**

This one-line summary identifies the writer and synthesizes the key ideas. A short summary like this might appear in the literature review of research paper in which the student gathers together the findings or opinions of scholars on a given subject.

What is the difference between paraphrasing and summarizing?

Summarizing and paraphrasing are somewhat different. A paraphrase is about the same length as the original source, while a summary is much shorter. Nevertheless, when you summarize, you must be careful not to copy the exact wording of the original source. Follow the same rules as you would for paraphrase.

d. Alat dan Bahan

- i. Komputer/laptop/handphone
 - ii. LCD Projector/Smart TV
 - iii. Pointer
 - iv. Sticky notes
 - v. Kertas folio bergaris
 - vi. Internet
- e. Prosedur Kerja

Let's warm up

1. Answer the following questions.

- a. When did you start using social media?
- b. What was your first social media?
- c. How did you know about the social media?
- d. What was the most interesting experience of using your first social media?

READING

2. Read the following text carefully. Answer the questions based on the text.

Indonesian internet users hit 196 million, still concentrated in Java

.The number of internet users in Indonesia has increased by 14.6 percent to 196 million people last year, from 171 million in 2018, despite persistent challenges in unequal access and digital literacy, the Indonesian Internet Providers Association (APJII) nationwide survey has shown.

The survey also revealed that Indonesia's internet penetration rate has gone up to 73.7 percent from 64.8 percent in 2018. This means that the country is catching up with neighboring Brunei, Singapore and Thailand, whose internet penetration rates exceeded 70 percent last year.

Despite having more internet users, connectivity is still highly concentrated in Java, the country's most populous island, followed by Sumatra, Sulawesi, Kalimantan, Bali and Nusa Tenggara, and lastly, Maluku and Papua, the survey finds.

This unequal access to the internet has kept Indonesia in 56th place in the digital competitive index, the same as last year, as the country continues to struggle to provide internet connection in remote areas.

Adapted from: <https://www.thejakartapost.com/news/2020/11/11/indonesian-internet-users-hit-196-million-still-concentrated-in-java-apjii-survey.html>

- 1. According to the Indonesian Internet Providers Association (APJII) survey, how much did the number of internet users in Indonesia increase by last year?
 - a. 10.6 percent
 - b. 14.6 percent
 - c. 64.8 percent
 - d. 73.7 percent
- 2. What is the current internet penetration rate in Indonesia as revealed by the survey?

- a. 56.8 percent
 - b. 64.8 percent
 - c. 73.7 percent
 - d. 82.9 percent
3. Which of the following countries had a higher internet penetration rate than Indonesia last year?
 - a. Brunei
 - b. Singapore
 - c. Thailand
 - d. All of the above
 4. According to the survey, which of the following islands has the least concentration of internet connectivity?
 - a. Bali
 - b. Maluku
 - c. Sumatra
 - d. Java
 5. In terms of the digital competitive index, what position does Indonesia hold?
 - a. 14th place
 - b. 64th place
 - c. 56th place
 - d. 82nd place

Read the text above again and identify the topic sentence and main points of each paragraph. Use the following table as a template.

Paragraph 1	• Topic sentence: • Main points:
Paragraph 2	• Topic sentence: • Main points:
Paragraph 3	• Topic sentence: • Main points:
Paragraph 4	• Topic sentence: • Main points:

Based on the notes you took on the central arguments and main points of the text, summarize the text by using your own words.

WRITING

3. Write a short essay about your experience of having social media account for the first time. Before writing a complete essay, make an outline by using the following template.

Title:

Paragraph 1 (<i>Orientation</i>)	
Topic Sentence	
Supporting Details	1.
	2.
	...
	...

Paragraph 2 (<i>Events</i>)	
Topic Sentence	
Supporting Details	1.
	2.
	...
	...

Paragraph 3 (<i>Re-orientation</i>)	
Topic Sentence	
Supporting	1.

Hopes, Dreams, and Ambitions

Hopes, dreams, and ambitions are related concepts that involve desires, aspirations, and goals for the future. While they share similarities, there are subtle differences in their meanings.

1. **Hopes:** Hopes refer to optimistic expectations or desires for something positive to happen. They are often associated with a sense of anticipation and are more focused on a particular outcome or result. Hopes can be personal, such as hoping to achieve a specific goal or hoping for a positive change in a situation.

Expressions related to hopes:

- "I hope to pass my exams with flying colors."
- "I hope to find a job that aligns with my passion."
- "I hope to have a happy and fulfilling life."

2. **Dreams:** Dreams are often more imaginative and encompass a broader range of possibilities. They are deeply personal and can reflect one's deepest desires and fantasies. Dreams may be ambitious, unconventional, or even seemingly unattainable. Dreams often involve aspirations for personal growth, success, or fulfillment.

Expressions related to dreams:

- "My dream is to become a famous writer and publish a bestselling novel."
- "She has always dreamed of traveling the world and experiencing different cultures."
- "His dream is to start his own business and become an entrepreneur."

3. **Ambitions:** Ambitions are strong desires and aspirations to achieve specific goals or reach a particular level of success. Ambitions are usually accompanied by determination, drive, and a willingness to work hard. They often involve a long-term plan or vision and may be related to career, education, or personal achievements.

Expressions related to ambitions:

- "Her ambition is to become a successful lawyer and make a positive impact in the legal field."
- "His ambition is to climb the corporate ladder and become a CEO."
- "My ambition is to win an Olympic gold medal in swimming."

To express hopes, dreams, and ambitions in English, you can use various phrases and sentence structures. Here are some examples:

1. *Expressing hopes:*

- "I hope to..."
- "I am hopeful that..."
- "I have high hopes for..."
- "It is my hope that..."
- "I'm keeping my fingers crossed that..."

2. *Expressing dreams:*

- "My dream is to..."
- "I have always dreamed of..."
- "I dream of..."
- "It's my lifelong dream to..."
- "I've always had this dream of..."

3. *Expressing ambitions:*

- "My ambition is to..."
- "I am determined to..."
- "I am driven by the ambition to..."
- "I have set my sights on..."
- "I am working towards my ambition of..."

Remember that hopes, dreams, and ambitions are personal and can vary from person to person. The expressions and examples provided are just a starting point, and you can tailor them to suit your specific aspirations and goals.

- iv. Pointer
- v. Kertas folio bergaris
- vi. Internet

e. Prosedur Kerja

Let's warm up

1. Answer the following questions.

- a. What kinds of IT careers OR jobs are you familiar with?
- b. What is your dream career?

READING**2. Read the following text.**

IT managers manage projects, technology and people. Any large organization will have at least one IT manager responsible for ensuring that everyone who actually needs a PC has one and that it works properly. This means taking responsibility for the maintenance of servers and the installation of new software, and for staffing a help-desk and a support group.

Medium to large companies are also likely to have an IT systems manager. They are responsible for developing and implementing computer software that supports the operations of the business. They are responsible for multiple development projects and oversee the implementation and support of the systems. Companies will have two of three major systems that are probably bought off the shelf and then tailored by an in-house development team.

Apart from basic hardware and software expertise, an IT manager will typically have over five years' experience in the industry. Most are between 30 and 45. Since IT managers have to take responsibility for budgets and for staff, employers look for both of these factors in any potential recruit.

Nearly all IT managers have at least a first degree if not a second one as well. Interestingly, many of them do not have degrees in computing science. In any case, the best qualification for becoming a manager is experience. If your personality is such that you're unlikely to be asked to take responsibility for a small team or project, then you can forget being an IT manager. You need to be bright, communicative, and be able to earn the trust of your teams. Most of this can't be taught, so if you don't have these skills then divert your career elsewhere.

Taken from a book entitled Oxford English for Information Technology written by Eric H. Glendinning and John McEwan

Complete each section of the table by finding some information on the text above.

Job Title	
Nature of Work	
Formal Qualifications	
Personal Qualities	
Technical Skills	

Answer the following questions based on the text.

1. What are the responsibilities of IT managers?
2. Why does experience become the best qualification for being IT system managers?
3. What kinds of soft skills do you need to have to be IT managers?
4. In your opinion, what will happen if the IT managers cannot earn the trust of their

teams?

5. What can you conclude from the text?

SPEAKING

3. Video Making

Make a short video explaining about your dream career. Your video should cover responses to the following questions:

1. What is your dream career?
2. What attracts you to this job?
3. What skills do you need to have?
4. What do you hope to accomplish in this career?
5. Have you prepared yourself for this career in any way? (e.g., talked to someone in the field, read a book about what it's like to have such a career, or tried out a workshop or class?)
6. What will you do in college to help prepare you for this career?

LISTENING

4. **Interviewing for a new job can be a huge source of stress and anxiety. Watch and listen to the following video to get tips on how to prepare yourself for a job interview.**

Source: <https://www.youtube.com/watch?v=yBtMwyQFXwA>

Answer the following questions based on the video.

1. What does the speaker say about having an interview in a non-native language?
2. What questions are commonly included in the small talk?
3. What an interviewee needs to do when answering questions in the small talk?
4. What is the purpose of the small talk in a job interview?
5. What is the first question that is commonly asked in a job interview?
6. What you need to focus on when being asked about yourself?
7. Based on the video, what will the speaker discuss in the next parts of the video series?

Watch the video again and make a list of the DOS and DON'TS in an interview.

The DOS	The DON'TS

f. Refleksi

After learning the materials in this chapter, what have you learned? Fill the boxes with your most objective thoughts.

I have learned...	Challenges I faced during learning:	Aspects I need to improve:

Job Interview

Preparation is the key to a successful job interview. Here's how to be ready for some common question types. Job interviews can be a nerve-racking experience, especially when you don't feel prepared for them. And with the variety of interview questions that can be asked these days, it's hard to know what type of questions you should prepare for. Here are three types of interview questions that you should practice answering before that important job interview.

Common interview questions

- Tell us about yourself.
- What are your strengths and weaknesses?
- Why do you want to leave your current job?

These questions are for the interviewer to get to know you and to see if you're the best person for the job. Don't simply list things like your hobbies, your strengths or your work experience. Instead, give examples and use them to show your personality and the characteristics you have that make you perfect for the job. Your interviewer may want to ask questions about certain areas of your CV, so use this opportunity to link your experience to the job you're applying for.

Avoid: Giving a detailed life history or telling long stories that are irrelevant to the job or to the company.

Competency questions

- Tell me about a time you had to work as a team.
- Tell me about a time you had to use your creativity to solve a problem.
- Tell me about a time when you experienced conflict with a colleague and how you handled that situation.

Here, the candidate is asked questions about situations they have faced in the past that can demonstrate a particular skill they have. These could include skills like critical thinking, influencing, problem solving or flexibility. Interviewers often want to hear about challenges you've had, not just about times when everything went smoothly, so be ready with examples such as how you resolved conflict in your team or dealt with someone who was not working well. This will demonstrate that you can handle difficult situations.

When preparing for the job interview, read the job description carefully for the required skills and abilities and try to recall situations where you had to use these skills. Then use the STAR technique when talking about these examples:

- Situation – Give details about the context of your example and what you were trying to do.

- Task – Describe your responsibilities and the challenges you faced.
- Action – Describe what steps you took to deal with the situation.
- Result – Talk about the end result and how you contributed to this outcome.

Avoid: Going in unprepared and having to think up examples, or saying you've never faced any challenges at work.

Hypothetical questions

- What would you do if you had a different opinion from your boss about how to do something?
- How would you deal with a large volume of work with several staff members off work?
- What would you do if you had to introduce a new policy that you knew was going to be unpopular in your team?

Hypothetical interview questions are similar to competency questions except that instead of asking you to talk about an experience you've had in the past, they present you with an imaginary situation that you might face in your new job.

This might seem difficult to prepare for, but remember that your answers are meant to demonstrate the skills needed for the job. When preparing for the interview, consider the qualities that the interviewer might be looking for, qualities like conflict management, time management or people skills. Then think about how you can demonstrate those qualities in a range of situations. Start with situations that you've experienced and move on to other possible situations that you might encounter in the role you're applying for.

Avoid: Going off-topic, changing the subject and not answering the original question.

Whatever type of questions they ask, interviewers want to find the right person and are keen to give you the opportunity to demonstrate what you can do. With some preparation, you can show them that you're the perfect fit for the job.

Writing a Cover Letter and Curriculum Vitae (Resume)

The letter of application is the cover letter for your job application. Ideally, the letter should be one to two pages in length and should be accompanied by a resume or curriculum vitae (CV). The cover letter, which should be brief, serves to:

- Draw attention to relevant qualifications and work experiences listed in the resume;
- Make a match between what you have to offer and the potential employer's needs;
- Persuade your potential employer to consider your application carefully; and
- Support your request for an interview.

When writing a cover letter, the following should be taken into consideration.

(a) First Paragraph

- Use one of the following to draw the reader's attention to what you want to offer and the job/position you are applying for:
- Summarize the job opening;
- Name the job opening; or
- Ask about the availability of a job opening.

(b) Middle Paragraph(s)

Use one of the following in each of your middle paragraphs to persuade the reader to invite you to an interview.

- Education;
- Work experience;
- Ability to work with others and/or alone;
- Interest in your field;
- Interest in the company; and
- Responsibilities in previous positions.

(c) Closing Paragraph

In the last paragraph, you can request an interview, stating that you will be happy to come to the employer's office whenever convenient. Make it easy for the reader to follow up by providing your telephone number and e-mail address.

Useful Key Phrases

- Below are some useful key phrases you can use in your cover letter to apply for a position that has been advertised:
- I am writing to you in response to your advertisement for ...
- *I wish to apply for the position of*
- As you can see from my enclosed resume, my work experience and qualifications match the requirements for this position.
- *I look forward to an opportunity to speak with you in person.*
- I can be contacted at 03- xxxx xxxx or at the address above.
- *Please accept this letter as an expression of interest in the position of ...*
- I am enquiring about the prospects of employment in the Credit Division of your bank. An article in the xxxx stated that the bank is rapidly expanding and
- *I have enclosed a copy of my resume for your review.*
- I believe I possess the right combination of / skills.
- *My current position has provided me with the opportunity to ...*
- I would welcome the opportunity to meet with you to discuss my potential contributions to your company.
- *I look forward to an early reply.*

Sample Cover Letter 2

Aloysius Tan Kim
Hock 14, Jalan USJ2/4
Taman Crystal
Subang Jaya
46000 Petaling Jaya

Mr Yeap Hin Lee
Personnel Manager
Logistics Inc.
1516, Persiaran Kelab
Emas 47200 Klang,
Selangor

Dear Mr Yeap

Application for the Position of Chief Supervisor

Please accept this letter as an expression of interest in the position of Area Sales Manager.

I have enclosed a copy of my resume for your review (have). I am familiar with the requirements to succeed in the sales profession and believe that I possess the right combination of marketing and management skills.

In my current position I coordinate two local area sales teams. This has provided me the opportunity to work in a high-pressure team environment where it is essential to be able to work closely with my colleagues in order to meet sales deadlines.

Thank you for your time and consideration. I would welcome the opportunity to personally discuss my potential contributions to your company with you. Please call me at (603) 3522-0259 after 4pm to suggest a time that we may meet. I look forward to your reply.

Sincerely,
Aloysius Tan
Aloysius Tan Kim
Hock Enclosure

Curriculum Vitae (Resume)

A resume is a document that contains a record of your qualifications, work experience and achievements. It is a summary of your personal data, including your educational background, skills, qualifications, work experience, references, hobbies and interests. It is also sometimes referred to as a curriculum vitae (CV).

A well-designed resume presents information in sections with headings. There are three types of resumes:

(a) Basic resume

Comprises all the normal parts of a resume but is simpler and shorter. Suitable for school-leavers or those who have little work experience.

(b) Functional resume

Uses a different order of presentation to highlight a wide range of skills and work experience. Starts with the most recent work experience that matches a potential employer's needs, followed by subheadings to highlight job functions. This type of resume uses the advertisement as a guide for specific functions, e.g., *supervisory, marketing, training*.

(c) Specific resume

Prepared for a specific job with emphasis on qualifications, skills and experience which are particularly relevant to the job. Presents experience in terms of criteria advertised. Highlights strengths with action words (verbs) such as *achieve, adapt, initiate, install, prepare, report, research, supervise, inspect* and *make*.

Example:

Study the format of the following three resumes. Based on your understanding of resumes, state the type of resume that each represents.

1. _____	2. _____	3. _____
Name Address Telephone Date Employment Objective State reason for wanting job Employment experience Present employment history, starting with most recent to first position. Give title of each position, brief description of each job function, particularly those relevant to the position applied for and indicate specific achievements or initiatives accomplished.	Name Address Telephone Date Employment Objective State reason for wanting job Educational qualifications Present in one of three ways: (a) reverse chronological order, (b) in order of those most relevant to the position or (c) in order of importance, for example, degree, diploma or trade certificate.	Name Address Telephone Date Employment Objective State reason for wanting job Educational qualifications List all certificates, subjects covered, awarding institution. Work experience Mention all work experience including voluntary, part-time and student vacation work.

Educational qualifications Fully identify qualifications, awarding institution, details of course subjects; present in reverse order, emphasise qualifications important to potential employer. Activities and interests Present evidence of interpersonal skills, other relevant skills, community involvement or sporting interests. Professional memberships Highlight membership in professional associations. Referees Provide one professional and work-related referee and another who will provide character reference. An academic reference is also useful.	Skills experience Emphasise particular skills and relate to the position. Draw attention to any reference by the potential employer to these skills. Work Experience Date/Position/Duties /Responsibilities held and achievements Personal Interests and Hobbies Highlight activities which involve ability to mix with other people as well as capability to work alone Referees/references Provide names and contact numbers. Send photocopies of written references and keep original copies for the interview.	Achievements State special achievements in school and other organisations. Activities and interests Highlight interests and special skills. Arrange from most recent to least recent. Referees Provide names and contact numbers of individuals who have agreed to recommend your skills and recent work.

Making Presentations

Conducting an oral presentation is a common thing to do for students, scholars, and professionals. It is done to disseminate new knowledge or information and very often conducted in classes, seminars, conferences, public lectures, and company meetings. Thus, mastering how to deliver a good and effective presentation is crucial. Or presentation particularly involve three crucial steps. They are planning, practicing and presenting.

a) Planning

An important element to making an effective presentation is proper planning. You need to sort your ideas out systematically before you give the actual presentation. To make it systematic, you need to make an outline or a mind map to make sure the flow of your presentation in in order and can be easily understood by your audience. When preparing, make sure to address these issues.

Table 3. Issues in Making Effective Presentations

Issues	Description
Audience	- Focusing the presentation on your audience It is not about how much and how long what you can say, but about how much you audience can understand your materials. - Organizing your information into several points or categories (approximately three to five points or categories). If you give the audience more points, it can be hard for them to remember your points of discussion. - Building repetition Listening is different from other skills, such as speaking, reading, and writing. When listening to an oral presentation, your audience cannot go back to what they missed or did not understand. Therefore, you can build repetition by making internal summaries, having transitions, and creating analogies and stories.
Introduction	- Introducing yourself and your team members (if the presentation is in teams or groups) When you introduce yourself, if needed, you can provide your affiliation and/or credibility.

	- Creating an effective opening The opening should be made interesting and you can either pose a question, tell a short and interesting story, give a fact to the audience. - Revealing your topic Your audience need to know what you are presenting. In this step, you can explain the importance of learning or knowing something, particularly about the topic being discussed, - Giving a brief outline The brief outline can cover several major points you will discuss in your presentation.
Main Body	- Explaining your points In explaining your points, you have to give clear explanations and provide sufficient and convincing evidence. - Using transitions between your presentation sections Transitions are very helpful when you deliver your presentation. You can use transitions between presentation sections (introduction, body, and conclusion) and points in the section of the main body. - Using analogies and stories Analogies and stories can help people understand your points of discussion well, especially when you need to explain complicated ideas and to build repetition.
Conclusion	- Signaling your conclusion with a transition - Summarizing your points - Referring to future action (if needed) - Ending your presentation with an expression of gratitude, such as thank you - Answering questions (if any)
Visual Aids	- Making your visual aids readable and interesting - Providing information in the form of points, not in the form of long sentences or paragraphs. - Trying not to include too many images or animations. - Setting your position right (avoid blocking the visual with your body or turning your back on the audience.

b) Practicing

There is a popular saying that "Practice Makes Perfect". When conducting a presentation, practice is essential. By practicing, you can try to figure out emphasis of words and phrases, timing, and overall presentations. You can follow these aspects when practicing.

- Recording and reviewing your presentation
To know how you appear and sound to your audience, you can record your presentation and review it afterwards. By doing so, you notice that you probably talk too fast, pause awkwardly, or use distracting gestures.
- Considering the use of different colored highlights
To remind yourself when you need to pause, emphasize particular points, change of slide, etc., you can choose different colored highlights.
- Practicing in front of peers and eliciting feedback
You can ask you peers to listen to your presentation and give feedbacks on your delivery and presentation. They may be asked to give comments about which aspects in your delivery work well and which needs improvement.
- Repeating practices
The more you practice, the more fluent and comfortable you will become with your materials. By doing repeated practices, you will be more professional polished when you deliver your presentation.

c) Presenting

As a presenter, you are the one in charge of the situation when the presentation is running. It is your duty to make your audience engaged and comfortable with both you and the materials being delivered in the presentation. Here are several tips to make your audience engaged and comfortable.

- Maintain frequent eye contact (look at slides or notes briefly and sweep the room with your gaze and pause briefly on people in the room). Maintaining eye contact.
- Smile, move your arms, and nod moderately or when necessary.
- Be enthusiastic about topics being delivered.
- Maintain a reasonable distance from your audience.
- Calibrate and maintain the volume of your voice so that everyone can hear you (neither speaking too softly nor shouting).
- Avoid using fillers, such as okay, ah, I mean, um, etc.
- Act as relaxed and natural as possible.
- Dress appropriately.

d. Alat dan Bahan

- i. Komputer/laptop/handphone
- ii. LCD Projector/Smart TV
- iii. Clip-on/Microphone
- iv. Pointer
- v. Sticky notes
- vi. Kertas HVS
- vii. Koran/majalah
- viii. Flipchart
- ix. Internet

e. Prosedur Kerja

Let's warm up

1. Answer the following questions.

- a. Have you ever heard about Artificial Intelligence?
- b. Are you familiar with certain AI applications or platforms?
- c. Is there any potential danger of the existence of AI?

LISTENING

2. Watch the video and listen to the speaker explaining about artificial intelligence (AI). Based on the video, answer the following questions by choosing A, B, C, or D.

Link: <https://bit.ly/3nAp5GN>

1. AI creates machines that can perform the following human attributes, **except**
A. Learning B. Thinking C. Feeling D. Adapting
2. "...and it's changing our world in ways you might not have even imagined." What does the sentence mean?
A. People have never anticipated the impact of AI in today's life.
B. AI does not bring any impacts on people's life.
C. People become dependent on various AI platforms.
D. AI has the potential to support people's life.
3. How many types of AI explained in the video?
A. 2 B. 3 C. 4 D. 5
4. The following are the characteristics of narrow AI, **except**
A. designed to do specific tasks
B. the machine performs like a specialist
C. able to do general things
D. trained only to do a single thing
5. What does the speaker say about the general AI?
A. General AI is still in its initial development.
B. Today's technology has supported the general AI.
C. General AI can potentially replace humans.
D. Industry has made use of the implementation of general AI.
6. The following statements are true about machine learning, **except**
A. It is basic part of Artificial Intelligence.
B. It is related to teaching computers to learn from data.
C. There are three main types of machine learning
D. Different types of data have the same outputs.
7. From the video, it can be inferred that AI
A. AI is potentially threatening us in the future.
B. AI is designed to help human in various aspects.
C. AI is no longer a popular issue to discuss today.
D. AI is not related to any sectors of people's activities.
8. "... there are also some potential downsides to AI" What does the underlined word mean?
A. Advantages B. Positive sides C. Negative sides D. Improvements
9. In world of work, what should we concern about by the development of AI?
A. Ethical issues
B. Job displacement
C. Decision making
D. Professional bias
10. What aspect of Artificial Intelligence is not mentioned by the speaker in the conclusion?
A. AI's potentials for better future
B. Responsible and ethical development of AI
C. AI's potential dangers
D. Obsession in the development of AI

READING

3. Read the following text carefully and answer the following questions.

Top 5 Ethical Concerns Raised By AI Pioneer Geoffrey Hinton

AI pioneer Geoffrey Hinton, known for his revolutionary work in deep learning and neural network research, has recently voiced his concerns regarding the rapid

advancements in AI and the potential implications.

In light of his observations of new large language models like GPT-4, Hinton cautions about several key issues:

1. **Machines surpassing human intelligence:** Hinton believes AI systems like GPT-4 are on track to be much smarter than initially anticipated, potentially possessing better learning algorithms than humans.
2. **Risks of AI chatbots being exploited by "bad actors":** Hinton highlights the dangers of using intelligent chatbots to spread misinformation, manipulate electorates, and create powerful spambots.
3. **Few-shot learning capabilities:** AI models can learn new tasks with just a few examples, enabling machines to acquire new skills at a rate comparable to, or even surpass, that of humans.
4. **Existential risk posed by AI systems:** Hinton warns about scenarios in which AI systems create their own subgoals and strive for more power, surpassing human knowledge accumulation and sharing capabilities.
5. **Impact on job markets:** AI and automation can displace jobs in certain industries, with manufacturing, agriculture, and healthcare being particularly affected.

Hinton's concerns about the rapid advancements in AI and their potential implications underscore the need for responsible AI development.

His departure from Google signifies his commitment to addressing safety considerations, promoting open dialogue, and shaping the future of AI in a manner that safeguards the well-being of humanity.

Though no longer at Google, Hinton's contributions and expertise continue to play a vital role in shaping the field of AI and guiding its ethical development.

Adapted from: <https://www.searchenginejournal.com/top-5-ethical-concerns-raised-by-ai-pioneer-geoffrey-hinton/485829/>

1. What is the text about?
2. What does Geoffrey Hinton do?
3. In your opinion, what does it mean by "bad actors"?
4. From those 5 key issues, based on your point of view, which one is the most dangerous? Why?
5. The phrase "His departure from Google" suggests that

GROUP DISCUSSION

4. **Work in groups of 4 (four). Choose one of the following AI websites/platforms with your group members.**

1. **GRAMMARLY**

2. **SIRI**

3. **SOUNDFUL**

4. **CHAT GPT**

5. **UBERDUCK**

6. **SYNTHESIA**

The discussion should focus on:

1. The AI website/platform you are discussing.
2. Its short description.

3. How to access the website/platform.
4. Types of task(s) that the AI can do
5. How the AI can help the users.
6. Potential negative sides of the AI.

5. Present the results of your group discussion in front of your class in form of group presentation. You may need to provide PPT Slides to support your presentation.

f. Refleksi

After learning the materials in this chapter, what have you learned? Fill the boxes with your most objective thoughts.

I have learned...	Challenges I faced during learning:	Aspects I need to improve:
1. ...	1.	1. ...
2. ...	2.	2. ...
3. etc	3. Etc	3. etc

g. Rubrik Penilaian

Listening Task

Number of Question	Total Score	Scoring
10	100	$\frac{\text{Total of Correct Answer}}{5} \times 100$

Reading Task

Number of Questions	Total Score	Scoring
10	100	$\frac{\text{Total of Correct Answer}}{5} \times 100$

Scoring Rubric for Oral Presentation

Category	Scoring Criteria	Total Points	Score
Organization (15 points)	The type of presentation is appropriate for the topic and audience.	5	
	Information is presented in a logical sequence.	5	
	Presentation appropriately cites requisite number of references.	5	
Content (45 points)	Introduction is attention-getting, lays out the problem well, and establishes a framework for the rest of the presentation.	5	
	Technical terms are well-defined in language appropriate for the target audience.	5	
	Presentation contains accurate information.	10	
	Material included is relevant to the overall message/purpose.	10	
	Appropriate amount of material is prepared, and points made reflect well their relative importance.	10	
	There is an obvious conclusion summarizing the presentation.	5	

BKPM - (INTERMEDIATE ENGLISH)

Presentation (40 points)	Speaker maintains good eye contact with the audience and is appropriately animated (e.g., gestures, moving around, etc.).	5	
	Speaker uses a clear, audible voice.	5	
	Delivery is poised, controlled, and smooth.	5	
	Good language skills and pronunciation are used.	5	
	Visual aids are well prepared, informative, effective, and not distracting.	5	
	Length of presentation is within the assigned time limits.	5	
	Information was well communicated.	10	
Score	Total Points	100
